

World Archery's Beat the Outbreak target – week 8. This is a game of battleships. It can be played as a single player or a two player game.

Single player game: Randomly place the ships (above) on the board, or ask a friend to do it for you. You have 21 arrows. A hit (hitting the square with a ship circle in it) counts as one point. Bonus +2 for every ship you sink (hit all its circles).

Two-player game: Place ships for a friend and ask them to place for you. Alternate shooting. A hit gives you an extra shot before alternating, first to destroy all the battleships wins.

Place ships by drawing them on. The colours do not matter.
